3. Management Competence (Please answer **each question** in one paragraph of 5-7 sentences strictly)

- 3.1. Describe your organizational structure for design, development and managing complex Mobile Apps and Web Portal Projects.

- 3.2. Indicate whether your company uses a recognized project management methodology (e.g., Agile, PRINCE2, PMBOK, etc.), and describe how it contributes to overall project management process

- 3.3. Does your company have a dedicated software development unit, specialized in mobile Application and Web Application? If yes, briefly describe its structure, policies, and procedures.

- 3.4. What communication protocols, escalation procedures, and complaint resolution mechanisms are in place in your Company?

- 3.5. Describe your company's quality control mechanisms, standards (e.g., ISO), ethical practices, and adherence to international/local policies in similar assignments.

4. Technical Qualifications including Experience

Answer the Question-4 (Technical Qualifications including Experience) with reference to the projects given in the **Project Reference Sheet (Annex 01)**. Please note that each area shall be adequately covered with related details only. Project references shall be clearly mentioned for each sub-question. Maximum of five (05) pages to be used per one project.

Important:

- Please select **minimum 3 reference projects/assignments** that carried out by the firm/sub-consultancy/JV (within last 5 (five years) years) which fit to the similar scope (mobile and web application development), complexity and nature of the proposed assignment (As per the Terms of Reference).
The proven experience in below would be highly desirable.

4.1. Technical Expertise: Requires minimum 5 years in mobile and web application development with 3+ similar projects, including extensive MVVM architecture implementation, cross-platform iOS/Android development, React JS/NodeJS proficiency, RESTful API development, backend services experience, and secure database design capabilities.

4.2. Platform and Technology Experience: Demands demonstrated experience with Lanka Government Cloud or similar platforms, proven CI/CD pipeline and DevOps implementation, identity management systems expertise, biometric and multi-factor authentication knowledge, and QR code implementation and validation experience.

4.3. Integration and Security Expertise: Encompasses proven government system integration experience (particularly SLUDI (Sri Lanka Unique Digital ID) or similar identity systems), strong security frameworks and encryption protocols implementation, API gateway management expertise, and comprehensive knowledge of data protection and privacy compliance requirements.

4.4. Project Management and Delivery Capabilities: Involves strong project management skills with Agile/Scrum methodology experience, team members with relevant certifications preferred, proven ability to deliver complex projects within timelines, and experience managing simultaneous cross-platform development projects.

4.5. Government and Public Sector Experience: Includes previous government or public sector digital transformation project experience, understanding of government service delivery requirements and compliance standards, citizen-facing digital services development experience, and preferably knowledge of Sri Lankan government systems and processes.

4.6. Communication and Language Capabilities: Covers ability to work effectively with government stakeholders and technical teams, strong documentation and reporting skills, preferred multi-lingual support capabilities (Sinhala, Tamil, English), and experience in providing user training and knowledge transfer.

- **Project completion letters shall be submitted** for each reference project, issued by the respective client with client's reference including contact addresses and telephone numbers.

Please Provide a concise response to below questions with one paragraph, approximately 100–150 words

4.1. Describe your Company's Technical Expertise

4.2. What Platforms and Technology Experience your Company has (Cloud, CI/CD, DevOps, Identity Management).

4.3. Describe your experience in working/integration with Identity Management Systems, API Gateway Systems, Authentication and User Management Systems

4.4. Which Project Management Methodology you use and what are your Delivery Capabilities?

4.5. What is your experience in working with Government and Public Sector organizations?

4.6. Describe your Company's Communication and Language Capabilities

4.7. What is your work plan in response to the Terms of Reference (ToR)?

4.8. Describe your Company's Key experts' qualification and competencies in response to the Terms of Reference (ToR).

Question 5 to 12 shall be answered with some documentary evidence wherever applicable.
